DENIS BUTSKY

WEB DEVELOPER | FRONT END ENGINEER

+17788368978 | www.denisbutsky.com | developer@denisbutsky.com | Vancouver, Beautiful British Columbia

S U M M A R Y

Innovative Developer with over 3 years of progressive experience showcasing a versatile skill set in JavaScript, TypeScript, Vue, React, PHP, Python, and an array of cutting-edge technologies. Much like the Swiss Army Knife's adaptability for various tasks, seamlessly integrate into diverse projects, accelerating business growth and streamlining workflows. Beyond coding mastery, bring strategic project management, troubleshooting finesse, and a commitment to exemplary customer service. Proficient in UI/UX design, web security, and well-versed in tools like TailwindCSS, AWS and Google Cloud. Recognized for enhancing aesthetic value and user experience, I'm your go-to developer for high-quality, visually stunning web solutions.

E X P E R I E N C E

Front End Developer | Feb 2022 - Present | Convidera | Cologne, Germany
- *Collaborative Development*: Played within cross-functional teams, leading to the successful delivery of contemporary web solutions: REMEX: A portal for the expert in mineral disposal, including recycling, utilization or disposal of mineral waste. Virtrex: B2B platform for shortening sales cycle. Speekly: Platform for user generated content videos.
- *Agile Contribution*: Demonstrated adaptability and proficiency by rapidly integrating into new projects, proposing and implementing customized web solutions that made substantial contributions to business expansion and scalability.
- *Streamlined Processes*: Proactively identified opportunities for optimizing workflows, implementing strategic changes that streamlined operations and fostered a culture of continuous improvement in line with current industry trends.

Web Developer | Mar 2023 - Oct 2023 | University of British Columbia | Vancouver, BC
- *Strategic Web Development Leadership*: Led the conceptualization and implementation of the main website for the Immunology & Microbiology Department, displaying a profound comprehension of departmental requirements and goals in accordance with the latest trends in web development.
- *Efficient Project Management*: Exhibited exemplary project management capabilities by successfully delivering the website within the defined timeline. Despite potential challenges, maintained a commitment to quality and efficiency, ensuring the timely achievement of milestones in line with current best practices in web development.
- *Elevated Visual and Functional Appeal*: Took the initiative to enhance both the visual and functional aspects of the website by proposing and integrating additional improvements. This not only improved the overall user experience but also brought the website in line with contemporary design standards and the distinctive branding of the department, reflecting the latest trends in web development.

Web Developer | Jun 2021 - Feb 2022 | Freelance | Kyiv, Ukraine
- *Profitable Commercial Web Ventures*: Successfully developed, and delivered a series of commercial web projects, showcasing a profound understanding of evolving market trends and client requirements in alignment with the latest advancements in web development.
- *Diverse Tech Project Portfolio*: Designed and executed a diverse array of projects utilizing various tech stacks, highlighting versatility and adaptability in addressing distinct client needs and industry demands.
- Commitment to Continuous Learning and Mastery: Actively pursued expertise across a broad spectrum of web development fields. Engaged in consistent self-directed learning initiatives through various platforms. This proactive dedication to continuous improvement not only refined technical skills but also ensured staying ahead of emerging trends and adopting best practices in the dynamic landscape of web development.

Support Engineer / Fleet Manager | Feb 2020 - Jun 2021 | CloudMade | Kyiv, Ukraine

- *Technical Proficiency & Troubleshooting*: Demonstrated expertise in managing Android and Unix-based devices by effectively conducting testing, setup, customization, and troubleshooting. This comprehensive approach ensured optimal device functionality and user experience, resolving potential challenges proactively.
- *Strategic Market Research*: Conducted thorough market analysis to identify opportunities for hardware upgrades, ensuring the continuity and enhanced performance of ongoing projects. By proposing relevant hardware enhancements, contributed to maintaining project relevance and competitiveness in the marketplace.
- *Adaptive Remote Management*: Navigated challenges posed by the COVID-19 pandemic by swiftly implementing remote fleet management solutions across six countries. This strategic initiative ensured seamless operations, maintained productivity levels, and upheld service quality standards despite unprecedented global disruptions.
